Skills

- **Languages**: JavaScript, C++, Python, Java, PHP
- **Web Technologies**: HTML5 and CSS3, React.js, Tailwind CSS
- **Runtime/Backend**: Node.js, Express.js, FastAPI, REST APIs, JWT Authentication, Socket.IO
- **AI & LLM**: Prompt Engineering, AI Agent Workflows, LangGraph
- **Databases**: MongoDB, SQLite, PostgreSQL
- **Tools/Platforms**: Git, GitHub, Postman, Vercel, Render, Ubuntu
- **Soft Skills**: Problem-Solving, Adaptability, Cross-functional Teamwork, Continuous Improvement.

Internship

Web Stack Academy – MERN Stack Internship | Certificate — February 2026

- Completed a mentor-led MERN Stack internship covering MongoDB, Express.js, React.js, and Node.js.
- Applied full-stack development concepts to build and understand MERN-based web application workflows.
- Delivered technical presentations on project architecture, development workflows, and implementation approaches.

Projects

- **Alpha Invest AI – AI Investment Research Agent** | GitHub | Live Demo — July 2026
  - Developed a multi-agent AI research pipeline using LangGraph.js that resolves company names, gathers financials, news, and competitor data in parallel, and generates an investment verdict.
  - Designed a deterministic investment scoring rubric integrated with Groq's Llama 3.3 70B through LangChain.js, computing growth, valuation, risk, and moat scores for explainable and auditable investment decisions.
  - Integrated structured financial data from Financial Modeling Prep (FMP) and real-time market intelligence from Tavily, using Zod schemas to ensure reliable and structured AI outputs.
  - Deployed the application using Vercel (frontend) and Render (backend) with graceful fallback handling for API limits.
    Tech: React.js, Node.js, Express.js, LangChain.js, LangGraph.js

- **ResolveX – Complaint Management System** | GitHub | Live Demo — January 2026
  - Modeled a scalable, real-time complaint management system enabling transparent issue tracking with live status updates using Socket.IO and role-based dashboards.
  - Established RESTful APIs using Node.js, Express.js for efficient complaint handling and user management.
  - Strengthened secure media upload workflows by integrating Cloudinary, enabling users to attach evidence.
  - Optimized cloud deployment using Vercel (frontend), Render (backend), and MongoDB Atlas.
    Tech: MERN Stack, Socket.IO, Cloudinary, JWT, Vercel, Render

- **SecureWatch – CCTV Monitoring System** | GitHub | Live Demo — December 2025
  - Engineered a Laravel MVC-based CCTV monitoring platform for real-time surveillance and security.
  - Constructed role-based dashboards using Laravel for secure user management and operational workflows.
  - Implemented real-time broadcasting with Pusher and Laravel Echo for instant alerts and live notifications.
  - Crafted analytics dashboards using Chart.js and DomPDF for activity reporting and performance monitoring.
    Tech: Laravel 11, Bootstrap, JavaScript, SQLite, Pusher, Laravel Echo, Chart.js, DomPDF

Certificates

- ITIL 4 Foundation, *Simplilearn*. | Certificate — June 2026
- Mastering Data Structures and Algorithms, *Board Infinity*. | Certificate — July 2025
- Cloud Computing, *NPTEL, SWAYAM*. | Certificate — April 2025

Extracurricular Activities

- Participated in Inter-University Hackathon, Code-A-Haunt. | Certificate — March 2024
- Competed in the Inter-University Cricket Tournament and qualified for the semifinals. — February 2024

Education

- **Lovely Professional University** — Phagwara, Punjab
  B.Tech - Computer Science and Engineering **CGPA: 7.00** — August 2023 - Present
- **Sri Chaitanya Junior college** — Eluru, Andhra Pradesh
  Intermediate (PCM); **Percentage: 80** — June 2021 – March 2023
- **Little Buds High School** — Eluru, Andhra Pradesh
  Matriculation; **Percentage: 98** — April 2020 - March 2021
