Skills

- **Languages**: C++, Python, PHP, Java, JavaScript
- **Web Technologies**: HTML and CSS, React.js, Tailwind CSS, Socket.IO
- **Runtime/Backend**: NodeJS, Express.js, FastAPI, JWT, REST APIs
- **Tools/Platforms**: Git, GitHub, Postman, Ubuntu, VS Code
- **Soft Skills**: Problem-Solving, Adaptability, Cross-functional Teamwork, Continuous Improvement

Projects

- **ResolveX – Complaint Management System** | GitHub | Live Demo February 2026
  - Developed a scalable, real-time complaint management system enabling transparent tracking of issues with live status updates using Socket.io and role-based dashboards.
  - Designed and integrated RESTful APIs using Node.js, Express and MongoDB for efficient complaint handling and user management.
  - Integrated Cloudinary for efficient and secure media upload handling, allowing users to attach evidence to complaints.
  - Deployed the application using Vercel (frontend) and Render (backend) with MongoDB Atlas integration.
    Tech: MERN Stack, Socket.io, Cloudinary, JWT.

- **Loan Management System- Financial Platform** | GitHub | Live Demo January 2026
  - Modeled an end-to-end loan lifecycle covering pending, sanctioned, disbursed, rejected, and returned states with approval logging.
  - Established role-based permissions using route-level guards to prevent unauthorized data access.
  - Managed high-volume request processing supporting 1,000+ daily transactions ensuring efficient performance.
  - Strengthened system authentication using JWT sessions and OTP verification ensuring secure access.
    Tech: React, Node.js, Express.js, MongoDB, JWT, Crypts, Nodemailer, Vercel, Render

- **Synthesia – Music Streaming Platform |** GitHub April 2025
  - Engineered a full-stack music platform using MERN stack for responsive interactive user experience.
  - Constructed RESTful APIs using Node.js, Express, MongoDB for efficient content and user management.
  - Implemented secure authentication and media uploads for controlled access and efficient file handling.
  - Crafted a modern frontend using React Vite Tailwind CSS for modular components and smooth UI.
    Tech: MERN Stack (MongoDB, Express.js, React, Node.js)

Internship

Web Stack Academy – MERN Stack Internship | Certificate February 2026

- Completed a structured, mentor-led internship program focused on the MERN stack (MongoDB, Express.js, React, Node.js).
- Received guided training sessions covering full-stack web development concepts and implementation.
- Prepared and delivered oral presentations on assigned MERN stack Project as part of continuous evaluation.

Certificates

- Mastering Data Structures and Algorithms, *Board Infinity*. | Certificate July 2025
- Cloud Computing, *NPTEL, SWAYAM*. | Certificate April 2025
- Responsive Web Design, *Free code Camp*. | Certificate December 2023

Extracurricular Activities

- Participated in Inter-University Hackathon, Code-A-Haunt. | Certificate March 2024
- Competed in the Inter-University Cricket Tournament and qualified for the semifinals. February 2024

Education

- **Lovely Professional University** Phagwara, Punjab
  B.Tech - Computer Science and Engineering August 2023 - Present
- **Sri Chaitanya Junior college** Eluru, Andhra Pradesh
  Intermediate (PCM); **Percentage: 80** June 2021 – March 2023
- **Little Buds High School** Eluru, Andhra Pradesh
  Matriculation; **Percentage: 98** April 2021 - March 2021
